# Bug

**Material-dialogs** is an Android customizable dialogs API. The Git repository has 8758 ★ and 1440 commits. The framework provides many types of dialog window, one of them is the *Basic list* dialog which consists of a list of items and one check-box as shown in figure 1

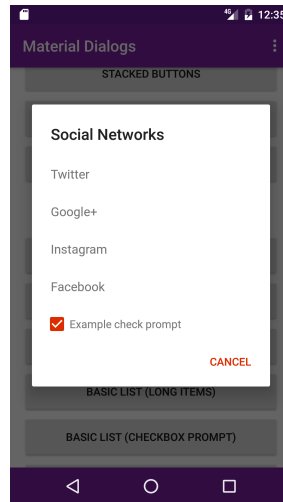

Figure 1: portrait

When the phone is in the landscape mode the check-box disappears as shown in figure 2, but the check-box must be visible like it is in the portrait mode.

On November 4, 2016 a *“bug”* label was added and on Jan 4, 2017 a *“help wanted”* label was also added.
